24. A delivery box according to claim 1, which includes a frozen storage compartment.
25. A delivery box according to claim 16, having a connection to an alarm system.
26. A method of delivering articles to a building equipped with a delivery box for accepting the articles which is built into an external wall of the building and has an outer door with an automatic locking system which is operable by a single-use access code, a compartment for storing the articles, and a lockable rear door for accessing the stored articles from inside the building comprising inserting a single-use code into the locking system, opening the outer door, placing the articles to be delivered in the compartment, closing the outer door so that said door automatically locks and cancels the code used for opening the outer door, opening the rear door from within the building, removing the articles from the compartment, and programming the locking system of the outer door with a new code.--

REMARKS

Claims 1-15 in the case are pending and stand rejected under 35 U.S.C. §112, second paragraph, as being indefinite. Claims 1, 2, 4-6, 9, and 13-15 have been rejected under 35 U.S.C. §102(b) as being anticipated by Gillard. Claims 1, 9, 10, 11, 14 and 15 have been rejected under 35 U.S.C. §102(b) as being anticipated by McSweeney. Claims 1-6 and 9-12 have been rejected under 35 U.S.C. §103(a) as being unpatentable over Plunkett in view of
